

# Chemical Reactions Walk Around

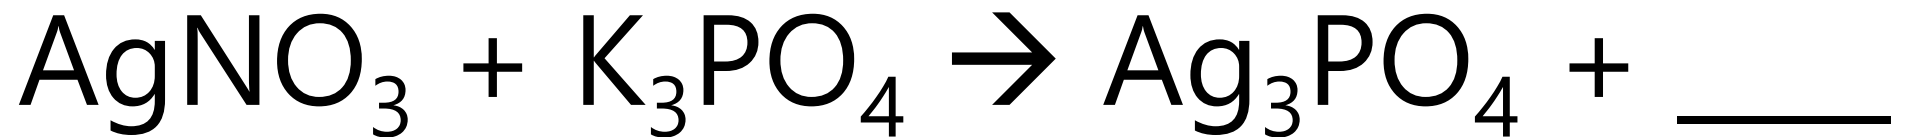

# 1

What type of reaction will occur with the reactants of the chemical equation below?

# 2

What is the missing product?

# 3

Which of these metals will NOT react?

Ca

Na

Sn

K

Mg

Li

Al

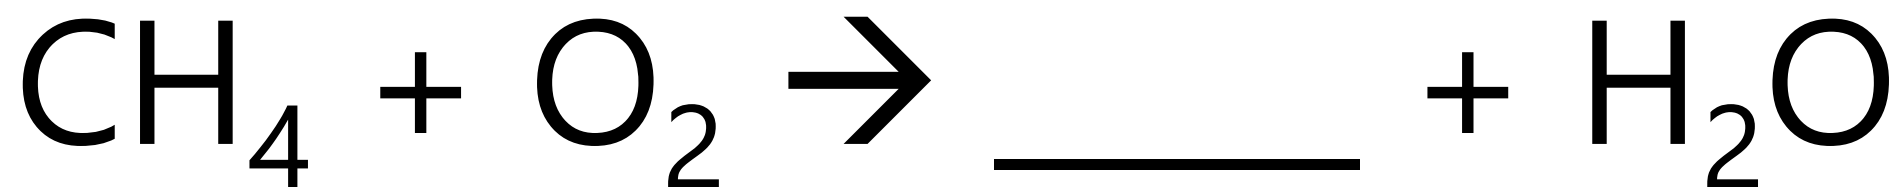

# 4

What type of reaction will occur with the reactant of the chemical equation below?

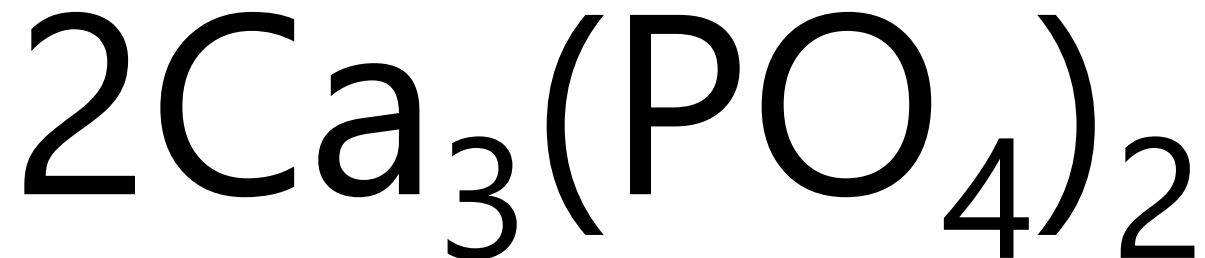

# 5

What is the missing product?

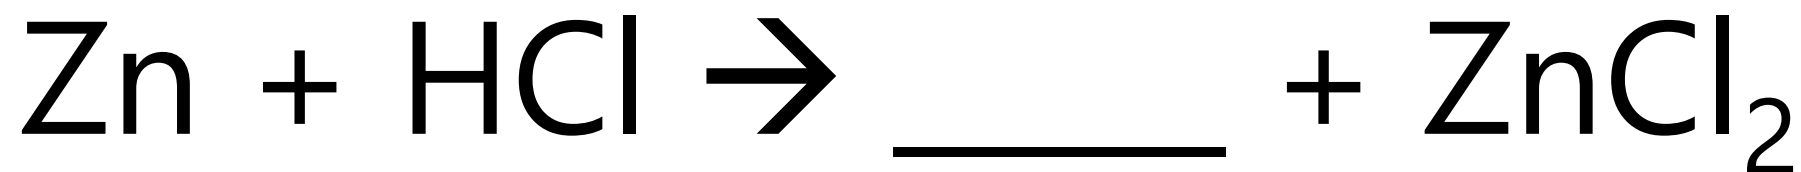

# 6

How many atoms of oxygen are represented below?

# 7

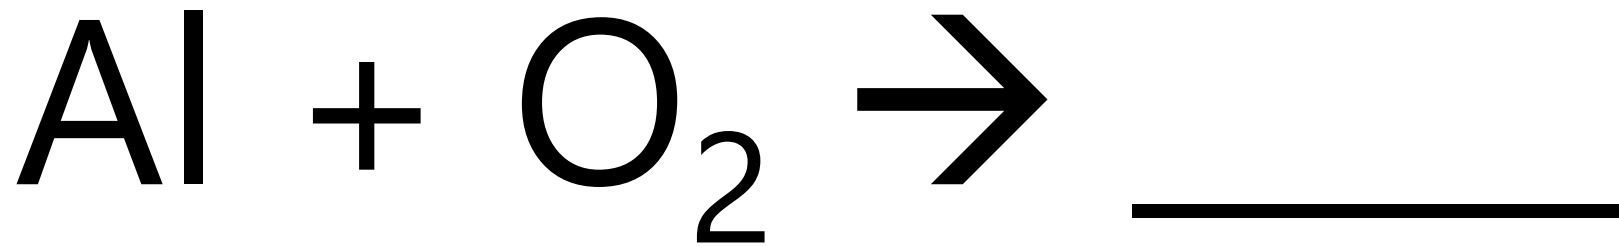

What is the missing product?

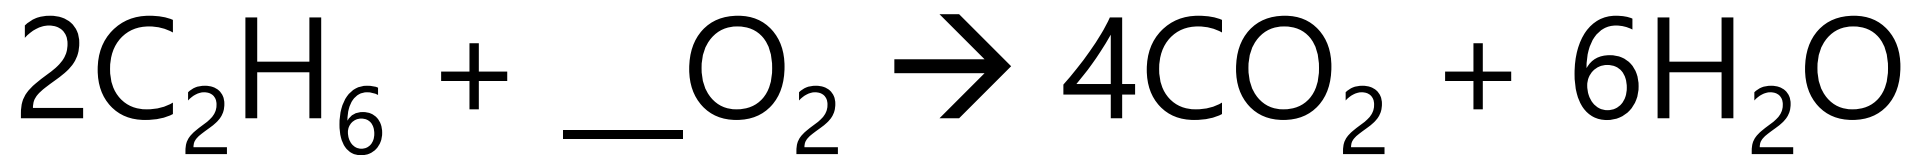

# 8

What is the missing product?

# 9

What is the missing coefficient?

# 10

What is the charge of an ion of Copper as shown in this reaction?
